Weston Community Preservation Committee

From: Winter Gardens Homeowners Association

Topic: Extension of Brown Street Pathway Project to Winter Gardens

Dear Committee Members:

We at Winter Gardens are very much aware of the ongoing review/evaluation by The Town of Weston to install pathways on Brown Street possibly extending down Winter Street to Westgate Church and Winter Gardens.

Winter Gardens is a 24 Unit Home Owners Association comprising mixed income and varying age groups, with approximately 15-20 school age children of various grades.

Without any public pathways, there is currently no safe way for us and our children to safely leave our community to walk, jog or ride a bicycle. Drivers often pass our entrance at an accelerated speed, and drivers going over the Mass Pike bridge can be upon pedestrians in a few seconds.

This safety issue and the lack of a public pathway prevents us from taking advantage of any other recreational pathways in Weston, unless we drive to them or drive our children to them. A pathway would enable us to get more exercise, improve our health, and walk, jog or ride to other parts of Weston, including the nearby schools and fields.

We, the undersigned, wholly support the extension of this project down Winter Street to the location of Winter Gardens/Westgate Church.

We appreciate any support you can provide on this project.
